

LEADERSHIP LAB

Increasing Your Leadership Capacity

- Increasing capacity changes the way you work.
- Increasing capacity means you are able increase your work load.
- Increasing capacity means there is a range in abilities.
- Increasing capacity means there are things I did not know how to do that now I know how to do and now I'm discovering new things I don't know how to do.
- Increasing capacity means taking risks.
- Increasing capacity means there is failure.
 - Jesus experienced this. One of His disciples betrayed Him.
- Increasing capacity has a willing spirit.
- If you're unwilling to be challenged, you have reached your capacity as a leader.
- Increasing your leadership capacity doesn't FEEL good, but it DOES good.
